The dean may also charge the approximate cost price for tags, ties and seals and make charges covering the cost of field, threshed-seed or bin inspections when such inspections are called for at such times and places as to involve a total expense in excess of the income from the established fees or charges. In all cases the fees and charges shall be fixed at a rate that will cover the approximate cost of the work.

(4) The dean may authorize the inspection and certification of tubers and agricultural, cereal grain and vegetable seeds without the collection of fees when grown in areas not in excess of one acre by members of 4-H Clubs and of the Future Farmers of America.

One of the samples shall be transmitted to the agricultural experiment station seed laboratory at Oregon State University for official testing for regulatory purposes. The other sample shall be tendered to the representative of the organization from whose structure or vehicle the sample was taken.

(3) The director may seize any container of agricultural or vegetable seed possessed, sold, offered or exposed for sale for planting purposes in this state that appears to be in

violation of any of the provisions of ORS 633.511 to 633.750, and proceed in the manner directed by law for the disposal of products seized by the State Department of Agriculture.

(4) Any sample taken under those sections, and the report showing the results of the official test made on any such sample, shall be prima facie evidence in any court in this state of the true condition of the entire lot, in the examination of which the sample was taken.

(5) A copy of the result of any such test shall be mailed to the person or authorized representative, if known, owning, possessing or holding the seed from which the sample was drawn.

(6) The director may cause to be published in the official paper or bulletin of the department a report of all seed inspection work done for regulatory purposes and shall indicate in the report:

(a) Licensing, suspension, reinstatement and revocation of licenses, which rules and regulations shall conform to the law governing suspension, refusal or revocation of licenses by the State Department of Agriculture.

(b) Regulatory and official sampling.

(c) Labeling of seeds, including such additional information as may be required in order to maintain uniformity with the laws and regulations of the federal government or of other states.

(d) Quarantining, which rules and regulations shall conform to the law for establishment of quarantines by the State Department of Agriculture.

(e) Seizure, treatment and disposition of seeds from outside this state.

(f) Seizure of seeds.

(g) Changes in the list of prohibited noxious weed seeds and in the list of restricted noxious weed seeds.

(h) Tolerances for differences between the contents of a container of agricultural or vegetable seed and the label thereon.

If the seed is found to be in compliance with those sections it shall be immediately released. If the seed is found to be in violation of any part of those sections, the director shall so notify the shipper and, unless the director is instructed to return such seed within 30 days or unless such seed is put in condition to comply with the provisions of those sections and all costs covering such inspection and seizure are paid, the director shall cause the seed to be destroyed. However, any person selling seeds of the person's own production exclusively, and persons selling only vegetable seeds at retail, in packages weighing not in excess of one-half pound, as prepared for such trade by other seed companies, if the seed company preparing such packaged seed for sale, has a license in force for the sale of such seed in this state, is not required to secure such license. For the purposes of this section, persons operating more than one branch, plant or warehouse where seeds are sold, offered or exposed for sale shall secure a separate license for each such branch, plant or warehouse.
